

## Denticon- Charting Watches

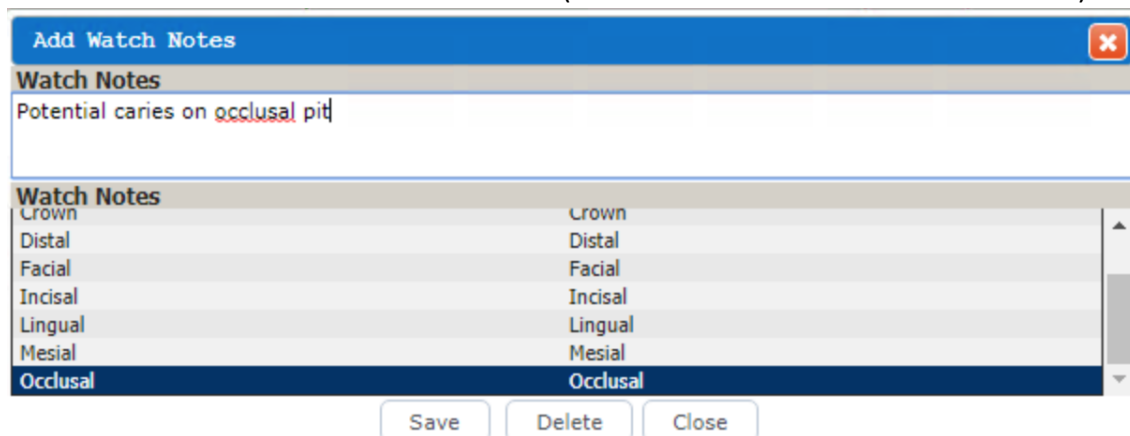

1. Choose Pre-existing, click inside the pink area of the tooth and choose Watch

2. Choose the appropriate arrow and move it to the desired area of the tooth

3. Choose the area to watch and enter notes (notes must be entered in order to save)

4. Once saved, notes will appear in the list below the tooth chart

The screenshot displays a dental software interface with a tooth chart and a list of pre-existing conditions. The tooth chart shows a full dental arch with various tooth icons. A red arrow points to a specific tooth (14) in the chart. Below the chart is a table with the following data:

Type	Date	St	Code	Description	Th	Surf	Prdr	Est. Ins.	Fee	Office	N
PRE-EXISTING	1/27/2021			New Mixed Dentition (7-10 Years)				\$0.00	\$0.00	D4C	
PRE-EXISTING	2/17/2021			Potential caries on occlusal pit	14			\$0.00	\$0.00	D4C
